✉ ayush.baware.dev@gmail.com  [GitHub](#)  [LinkedIn](#)  [Portfolio](#)

OBJECTIVE

Aspiring Software and Web Developer with a strong foundation in the MERN stack and Java. Skilled in building responsive web applications and applying problem-solving to real-world challenges. Seeking a full-time Software Engineer opportunity to develop scalable solutions and gain hands-on industry experience.

EDUCATION

Master of Computer Applications (MCA) **2025 – 2027**

Vivekanand Education Society's Institute of Technology, Mumbai
CGPA (FY): 9.35/10

Bachelor of Science in Information Technology (B.Sc. IT) **2022 – 2025**

Shri Mathuradas Mohota College of Science, Nagpur

TECHNICAL SKILLS

Languages	JavaScript, Java
Web Development	React, Node.js, Express.js, Bootstrap, Tailwind CSS
Databases	PostgreSQL (joins, foreign keys, schema design), MongoDB, MySQL, Firebase
AI/ML	Gemini API, RAG, Groq
Frameworks & Technologies	Spring Boot, REST APIs, Progressive Web Apps (PWA), Three.js
Tools & Platforms	Git, GitHub, Linux, Vercel, Render, Docker, Cron Job
Concepts	OOP, Data Structures & Algorithms (Java), Computer Networks

PROJECTS

DocuMind AI – AI Document Assistant

Built a full-stack RAG-based document assistant (MERN) that lets users upload PDFs, Word docs, and PPTs to generate instant AI summaries, structured notes, and answer questions via a context-aware chat assistant. Implemented semantic search using Gemini embeddings stored in MongoDB Atlas Vector Search for accurate retrieval, integrated the Google Gemini API for summarization and chat, and used Groq for low-latency auto-generated session titles.

[Live Demo](#) | [GitHub](#)

FinSight – AI Finance Manager

Built an AI-powered personal finance tracker as a cross-device PWA (React, Firebase, Tailwind) with voice-based expense logging, automatic categorization, and a real-time analytics dashboard delivering AI-driven budgeting and investment insights.

[Live Demo](#) | [GitHub](#)

Immersive Task Interface

Developed a React-based dashboard integrating a Three.js 3D environment with real-time visual feedback, optimized using lazy-loading and glassmorphism styling for a smooth 60 FPS experience.
